

Department of Mechanical Engineering

**Consolidated report on feedback and action taken on syllabus/curriculum
for the academic year 2017-18**

Stakeholder	Suggestions	Action Taken
Employers	Name and designation of resource person: Devendra Vara Prasad Sesetti, Assistant Manager, Hyundai Motors. The employer has suggested to incorporate Finite Element Analysis, Robotics, Automation in Manufacturing and Electronics related courses in curriculum.	Based on the valuable feedback given by the employer it is decided in the department meeting that the following subjects will be included as professional elective/open electives ➤ Automation in Manufacturing ➤ Robotics ➤ Python/Java programming It is also decided to include a basic subject on Electronics in the first year itself in R-19 regulation. The fundamentals learned through this course will be useful in learning advanced subjects like Automation in Manufacturing, Robotics and Mechatronics.
